Sir:

Listed on the accompanying forms PTO/SB/08A & PTO/SB/08B are documents which may be considered material to the examination of this application. A copy of the non patent literature documents are provided.

Pursuant to 37 CFR §1.97, the undersigned hereby states that no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.56 more than three months prior to the filing of the information disclosure statement.

The filing of this supplemental information disclosure statement should not be construed to be an admission that the information cited in this statement is, or is considered to be, material to patentability as defined in 37 C.F.R. § 1.56(b). Moreover, Applicant(s) reserves the right to establish the patentability of the claimed invention over any of the listed documents should they be applied as references, or to prove that some of these documents may not be enabling for the teachings they purport to offer.

This statement should not be construed as a representation that a search has been made, or that there does not exist information more material to the examination of the present application. The Examiner is specifically requested not to rely solely on the materials submitted herewith. Instead the Examiner is requested to conduct an independent and thorough review of the documents, and to form independent opinions as to their significance.

It is respectfully requested that the Examiner initial and return a copy of enclosed PTO/SB/08A & PTO/SB/08B and to similarly indicate that the document have been considered.

Respectfully submitted,

George P. Kobler
